

AWS Unified Analytic Services For Machine Learning & AI

Discover new opportunities and enable sustainable business results with leading analytical techniques

Build, Tune & Deploy AWS SageMaker ML & AI

Innovation That Matters

We help our clients deliver transformative growth from new products, services and business models. This means building the capabilities to discover, incubate and scale new, disruptive businesses.

We unify cross-functional teams of innovation strategists, industry experts, designers, engineers and data scientists in the development of machine learning models and AI services that can be built, tuned and deployed using AWS SageMaker for rapid and cost effective

When working with Cloudwick, we lead our clients on a structured five-step unified analytic journey rooted in the scientific method to discover new opportunities and enable sustainable business results using AWS data lake analytics to accelerate time-to-innovation at the best performance and cost.

Cloudwick is a certified AWS Machine Learning Competency partner and our consultants can assist you in your advanced analytic journey.

Identify strategic imperatives and critical business obstacles

Form a digital solution hypothesis

Test the hypothesis with Proof of Value experiments

Measure results, capture learnings, refine and expand

Institutionalize, scale and realize value

Build, Tune & Deploy using Amazon SageMaker for fast time-to-production
